

Designed to Protect Your Home & Garden

Yellow Jacket, Wasp & Hornet Trap & Refills

Outdoor Insect Control

The special design allows yellow jackets, wasps, and hornets to enter the trap from the sides. The insects enter the trap seeking the food based bait and will be killed in the liquid solution in the bottom of the trap.

- Reusable trap
- Refills available
- Bait and trap design attracts yellow jackets, wasps and hornets
- No zapping, lotions, sprays or electrical cords
- Adjustable zip tie included for easy set up and relocating

Insect control for sensitive areas

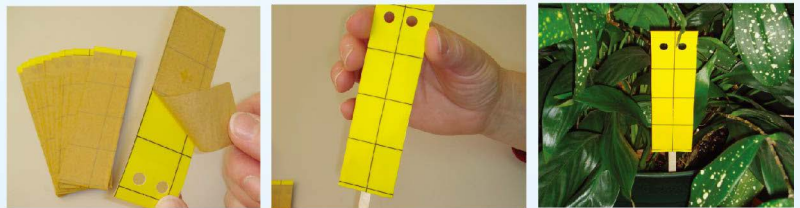

Gnat Stix

Sticky Trap Insect Control

Tiny bugs such as fungus gnats and aphids damage plants by feeding on their sap or leaves. These bugs are attracted to the yellow sticky trap, where they land and then are captured and killed in the sticky glue.

- Pesticide free
- Lasts up to 3 months
- Includes 12 sticky traps and stakes
- Effective against fungus gnats, aphids, plant lice, and other small insects

Insect control for sensitive areas

Flour & Pantry Moth Traps

Sticky Trap Insect Control

Flour & Pantry moths are attracted to dry foodstuffs and birdseed. The lure attracts male moths, trapping them on the sticky pad. Capturing adult male moths prevents them from mating and multiplying.

- Effective against Indian meal moths, Mediterranean flour moths, Almond moths and Raisin moths
- Pesticide free
- Lasts up to 3 months
- Pheromone lures attract male moths
- 2 pre-assembled traps & lures included

Designed to Protect Your Home & Garden

A-G-O Mosquito Trap & Refills

Mosquito Control

Mosquitoes breed in standing water that can be found outdoors in containers, pots, planters, gutters, tires, tree-holes, and low-laying areas. The A-G-O Mosquito Trap works by imitating a breeding spot for mosquitoes. The design allows mosquitoes to enter the chamber, where they will be unable to escape due to the metal screen and sticky trap inside.

- Controls mosquitoes that may carry West Nile Virus, Dengue Fever, Yellow Fever, & Chikungunya
- 2 traps included
- Refills available
- Season long control
- No zapping, lotions, sprays or electrical cords

The A-G-O Mosquito Traps have a real impact on disease transmission; in field studies by the CDC, the A-G-O Mosquito Trap reduced the population of *Aedes aegypti* (Yellow Fever Mosquito) by more than 80%¹ and chikungunya incidence in treated areas was 50% lower².

CDC field testing results show reduced disease transmission
