Our Story

Clever Goods Co is a legacy business. Lee Murrell started making copper and enamel flowers and butterflies over 40 years ago in Southern Florida. Anne Cork began helping him sell his work about 15 years ago. When Mr. Murrell decided to retire, he trained Anne in his art. We are happy to continue his work with some twists of our own. All of the pieces are handcrafted at our studio in Cedar Springs, Michigan by a women-led welding and enameling team. All products are made with stainless steel, copper and torch fire enamel. They can be left outdoors, and the vibrant colors will not fade. Our natural copper pieces are untreated so they will develop a lovely patina with time.

Easy Arranger is where everything began for us. 20 years ago, Anne wove wire together in the shape of a flower to help her arrange flowers. Her gut told her she was on to something so she quit her corporate job and started Annabelle Noel Designs. Over the last 2 decades, we have sold millions of Easy Arrangers and we are proud to say we've helped create millions of beautiful flower arrangements. To celebrate our anniversary, we are launching a real copper, Made in USA version of Easy Arranger in 2024.

How it's made
