@true_organic_

Formulated to deliver the healthiest results for people and planet.

Why True?

TRUSTED

Trusted by America's leading organic farmers for 20+ years.

True's commitment to your safety is unsurpassed. We invest more in R&D than any of our competitors, exceeding industry requirements for clean sourcing and testing for pathogens. Our expert team, staffed with PhDs in agronomy, microbiology, and farming, is constantly innovating to create better, more effective offerings as we search the world for raw materials that are healthier for people and planet.

TESTED

The only organic fertilizer Food Safety Certified for safer edible gardening.

For two decades, our parent company True Organic Products has been supplying organic fertilizer to some of America's biggest organic farms. We've applied our agricultural expertise and knowledge as the worldwide leader in innovative fertilizers and packaged it for your backyard.

TRANSPARENT

Family owned, operated, and manufactured under one roof.

You deserve to know what you buy. That's why we manufacture all our products in house and spell out each ingredient in our premium blends. From seabird guano to poultry manure to soy bean and fish bone meal, what you see is what you get - with a healthy helping of independent certifications to prove their benefit in growing plants that are both beautiful and bountiful.

TRUE

Ethically-sourced premium organic content, free of fillers or additives.

We specialize in one thing: manufacturing the highest quality, ethically sourced organic plant foods and fertilizers, true to the way nature intended. We're a group of people passionate about sustainability. In the face of climate change and biodiversity loss, replenishing our soil can play a vital role in sequestering carbon, improving water retention, and enhancing soil fertility. Because the more we give the soil, the more it gives back to us - with results you can see and taste.

Trusted by the Organic Food Industry

Our products are rigorously tested for pathogens. In fact, we're the only plant food company that is ISO 22000 certified by Boreau Veritas, which means we have a food safety management system in place to help produce a safer product to grow your food in. It maps out what an organization needs to do to demonstrate its ability to control food safety hazards in order to ensure that food is safe. It can be used by any organization regardless of its size or position in the food chain.

The Only Certified Food Safe Agricultural & Retail Fertilizer

True Organic Granular Plant Food

True Organic Plant Food is blended from natural & organic farm-grade ingredients used to make fertilizers for America's largest organic farmers. And now's it available for your home garden. The ingredients are proven to be extremely beneficial for both plants and soil, including:

- **Seabird Guano** - A great source of phosphorous and slow release nitrogen with a complete micronutrient package.
- **Shrimp Shell and Crab Shell Meal** - A premium, sustained supply of calcium and nitrogen for both microbes and plants.
- **Poultry Manure** - Ethically sourced from organically raised birds, unlike other 'organic' fertilizers that source from conventional farms.
- **Humic Acid & Soy Protein Hydrolysate** - Natural biostimulants to promote root growth and plant health.
- **Soybean Meal** - Leaves nitrogen-rich residue in the soil which leads to vigorous growth of bacteria and fungi microbes.

No Sludge, Fillers or Additives.

What do our buyers say about why they love

"We believe in the True Organic team. They do a great job, have a strong leadership team, and they're out to do the right thing. True Organic is head and shoulders above everyone else as far as their commitment to food safety which is very important to us."

"The packaging makes for a stunning display. The quality makes for healthy plants and happy consumers. The service - well, that makes for a satisfied buyer. The sales team is always there for me whether it be answering questions or working event booths."

"I've seen firsthand the difference True Organic has made in not only the growth of my plants, but more importantly their health.

I am so thankful for this company and the amazing work it's done as the most organic and beneficial product on the market to fertilize with."

"I use True Organic for the consistency of the products and their ingredients. True is a reliable supplier with first class service that provides us the flexibility we need in doing business."

"The reasons I use True Organic simply put: best in class, clean, and pathogen-free. That's very important when you are providing food for grocery stores and schools."

Organic Root Enhancer

Use to boost plant growth for abundant vegetables, fruits, herbs and flowers.

True Organic Root Enhancer forms a beneficial partnership with plant roots to improve nutrient and water uptake efficiency, enhance plant growth, and increase stress resistance.

Organic Root Enhancer

DESCRIPTION

- Use to boost plant growth for abundant vegetables, fruits, herbs and flowers.
- Reduces transplant shock
- Supports healthier and denser root systems
- Enables soil to retain nutrients for longer and increases efficiency of plant's nutrient use
- Promotes robust plant and root growth for improved plant yields
- Is ideal for indoor and outdoor plants

GUARANTEED ANALYSIS

CONTAINS NON-PLANT FOOD INGREDIENT(S):
 Contains the following species of vesicular arbuscular mycorrhizal fungi:
 Rhizophagus intraradices..... 150 propagules / g

Contains at least 68,000 microbes per lb.

Available in:

1 lb bag

All Purpose Plant Food

DESCRIPTION

- Use True Organic All Purpose Plant Food all around your garden for abundant organic fruits, flowers, vegetables, herbs, and foliage
- People and pet friendly

- Store locator tool for customers to easily find retail locations

True Organic Liquid Plant Food

True Organic Liquid Plant Food is blended from natural & organic farm-grade ingredients proven to be extremely beneficial for both plants and soil, in particular Soy Protein Hydrolysate, a potent biostimulant.

Soy Protein Hydrolysate : Protein Biostimulant

- Improves germination, productivity, and quality of a wide range of crops.
- Improves root and shoot growth and increases photosynthesis.
- Stimulates plant-hormone like response (Gibberellic Acid, Auxin).
- Improves resistance to environmental stresses.
- Enhances nutrient availability in plant growth substrates and increases nutrient uptake and nutrient-use efficiency in plants.
- Stimulates plant microbiome's community.
- Induces disease resistance in plants.

Liquid All Purpose Plant Food

DESCRIPTION

- Use Liquid All Purpose Plant Food for abundant organic fruits, flowers, vegetables, herbs, and foliage
- People and pet friendly
- Contains Soy Protein Hydrolysate – an exclusive blend of farm-grade ingredients proven to be extremely beneficial for both plants and soil
- Made with 100% organic and natural ingredients
- No sludge, fillers, or additives
- For in-ground and container plants
