

Leader in
Horticultural
Containers

ABOUT THE HC COMPANIES

From grower to gardener, improving our world.

HC Provides Growers with More Choices for Their Container Needs.

The HC Companies has a trusted and highly respected brand suite that has been servicing North America since 1986. With over 125 years of combined expertise in the plastic plant container industry, you know you're getting the best products the market has to offer, and a service that puts your needs first every time.

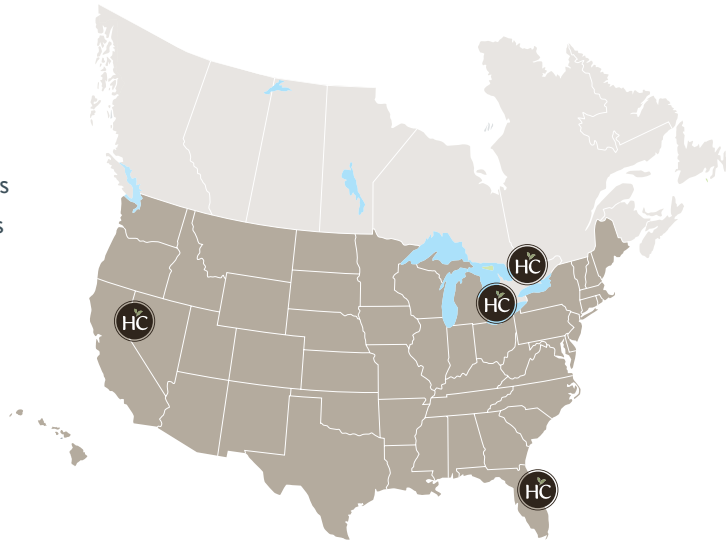

Industries need to evolve with the societal and environmental demands of today's more diversified customers or risk losing their market relevance. That is why it has never been more important for the manufacturers of horticultural containers to provide growers with planter and pot choices and alternatives that are purposeful, on-trend, and mindful of our planet. The HC Companies is doing just that.

Here at HC, we utilize the latest technologies to manufacture our planters, pots, and accessories using blow mold, thermoform, injection, co-ex, and vacuum formed production methods. We also offer sustainable fiber and biobased solutions produced with an average of 10% less post-consumer and post-industrial materials in various sizes and product offerings across our company portfolio.

HC is a proud culmination of many legacy growing container brands. We continue to transform the horticultural industry through bold leadership, innovative manufacturing, and a comprehensive portfolio of planters and pots ideal for greenhouse, nursery, retail, and sustainable growers.

LOCATIONS

We have corporate offices and manufacturing facilities located in the communities where you live across North America — helping provide for hundreds of families at our facilities.

PRODUCTS

The HC Companies offers a large breadth of products differing in size, shape and color to match any home décor. We understand customers vary, from the traditional home gardener with a big yard and front porch, to the beginner, urban grower who is trying out a house plant for the first time. Luckily, we have you covered with both traditional round containers in earthen tones, to modern sleek designs with vibrant hues and everything in between. Please contact your Sales or Customer Service Representative for product availability.

CUSTOMER SERVICE

We are committed to serving our customers by offering quality retail products, on time delivery and easy to work with Sales, Marketing and Customer Service Teams. Our Retail Team acts as a cohesive unit, working together to give you an experience that you can count on. We take pride in being a full-service operation providing retailers with first-rate customer care, and hassle-free ordering and delivery. Our Sales & Marketing Teams bring a wealth of industry and marketing knowledge to support retailers during the decision-making process, while our best in class Customer Service Team provides open lines of communication and total support throughout your entire order.

Sustainability Vision

The HC Companies believes that conducting business sustainably is essential for growers and gardeners to thrive in our collective future. To further our partnership with the horticultural industry, HC is committed to becoming the sustainability leader through eco-efficient manufacturing, innovative product development, and responsible resourcing to create sustainable solutions to help improve our world.

Our vision is a concise and clear commitment to truly living and embracing HC's mission and values by doing our part to improve our world for everyone. We have two new evolutionary goals that will set our direction for the future as a company. Those future goals include using zero virgin petroleum-based plastic content in all products, which are fully recyclable or degradable, as well as a 50% reduction in our operational carbon and water footprints.

HC'S HISTORY OF RESPONSIBILITY

Operating more sustainably has been at the core of HC's manufacturing for many years – consistently and successfully utilizing recycled content in our planters and plant pots. We were one of the first horticultural container suppliers to market with a full line of fiber, molded pulp containers – certified by the USDA Biopreferred® program as being manufactured of 100% Biobased Content. They're also manufactured in a state-of-the-art, closed-loop water recycling facility to help conserve and reuse water.

Additionally, our fiber growing containers use recycled newsprint and fiberboard – much of which is sourced from our own facilities. Always looking for new ways to grow our nearly 100% recycled fiber products, we're expanding into new markets such as protective packaging, whose popularity has soared in the last few years.

We broke new ground by introducing our biobased BioPax® containers – co-developed with our supplier partner – Certified USDA Biopreferred® and made from sustainably sourced wood pulp. BioPax® promotes less waste while offering an optimized end-of-life without compromising on strength and performance.

We guarantee a minimum of 10% PCR (Post-Consumer Recycled) content on average with our renowned line of horticultural containers. By incorporating a minimum of 10% PCR content within the 50% post-industrial recycled material we've been using for many years, we're leading the way for sustainability in our industry. This not only aligns with our dedication to environmental stewardship but also simplifies compliance for businesses operating in regions with stringent plastic-focused regulations.

BIOPAX

FEATURES & BENEFITS

- Made with certified biodegradable material
- Reduces carbon footprint without compromising quality/performance
- Packaged in sellable units of 6 pots per sleeve
- Made from sustainably-sourced wood pulp
- Will break down over time with NO microplastics*
- Made from certified biobased material - not petroleum
- Non-GMO, non-toxic

* Rate of degradation may vary due to thickness and/or environmental conditions

FEATURES & BENEFITS

- EcoGrow products are made from 100% recycled paper/newsprint and will breakdown over time in soil*
- Suitable for organic growing - great for herbs and edibles
- Supports plant root health through air flow and insulates against the elements
- Prevents transplant shock and controls moisture

* Rate could depend on environmental conditions and article shape and thickness

FIBER GROW

FEATURES & BENEFITS

- FiberGrow products are made from 100% recycled paper/newsprint
- Designed for increased strength and durability
- Promotes air flow and prevents transplant shock
- Controls moisture to prevent over-watering and drying out
- Insulates roots to help withstand varying temperatures

HANGING BASKET – FIBER

WaxTough Fiber
WAX

FEATURES & BENEFITS

- FiberGrow® WaxTough hanging baskets are molded using a slurry of fibers and binding agents in order to increase their strength and durability
- Baskets are made from FSC 100% Recycled material and coated in wax to increase longevity
- Durable metal hangers included for durable installation

HC's Grower and Nursery Containers

HC is a proud culmination of many legacy container brands. We continue to transform the horticultural industry through bold leadership, innovative manufacturing, and a comprehensive portfolio of growing container choices ideal for greenhouse, nursery, retail, and sustainable growers.

OUR MANUFACTURING AND PRODUCTION

We utilize the latest technologies to manufacture our growing containers using blow mold, thermoform, injection, co-ex, and vacuum formed production methods.

We provide growers with more choices for their growing containers – guaranteeing they'll find the ideal container solution to satisfy their unique growing needs.

HC's growing containers are made from resin comprised of post-consumers, post-industrial recycled materials. Plus, we regrind any excess materials for reuse in our manufacturing. There's little to no waste in the process.

*From grower to gardener to consumer and more,
we're improving our world together.*

GROWER CONTAINERS & SAUCERS

FEATURES & BENEFITS

- Economical and cost-efficient grower pots for the lawn and garden industry
- Includes dual-drainage for proper plant growth
- Fits grower saucers and clear saucers for consumer preference
