- Light Weight, Easy Assembly Light Stand
- Includes Rope and Hooks for Hanging Option
- Built-In Timer & Selectable
- Color Spectrums for Seeding, Flowering or Herb Growth

***Keep out* the Bugs!**

Miracle LED® Bug Lights provide a chemical-free solution to reducing pesky insects from outdoor living spaces such as porches, patios and outdoor floods. The Amber Glow of these energy saving LEDs is less visible to insects. Combine that with the low heat emissions of LEDs, these bulbs lessen the number of unwanted guests.

Many bug lights use cheap, yellow tinted plastic coverings to achieve this effect, but Miracle LED Technology changes the light temperature itself to create a bulb pleasing to the human eye as well.

Miracle LED carries a wide variety of Bug Lights to fulfill any outdoor lighting need.
