Got pests...get
REVENGE®

About Us

Founded in 1926, Bonide has become a global leader in the gardening industry. Since joining the Syngenta Group in 2019, our family business has expanded its global footprint, gaining significant resources to continue delivering top-quality pest control products for generations to come. Based in Oriskany, NY, our team of over 200 dedicated professionals passionately produces a diverse range of synthetic and organic gardening products.

Our unwavering commitment to meeting the needs of every gardener is reflected in our comprehensive selection of weed, insect, disease, and animal control products, available in various formulations and applications. You can find our premium products at national, regional, and local home centers, hardware stores, mass merchants, and garden centers across America. Bonide is recognized and respected as an industry leader, a testament to the trust and admiration we've earned from gardening enthusiasts like you.

We take immense pride in our rich heritage, which fuels our excitement for the future. We deeply appreciate your support of the Bonide family and are honored by the trust you place in us. As we continue to innovate and expand, we remain dedicated to providing the highest quality solutions to help your gardens thrive. Together, let's cultivate a greener, more beautiful world.

150-count 10-lb. Bags - Pallet	60614

Best Practice Tip:

Happy weeds die faster.

Get quicker results when using herbicides by applying a day after it rains. For best results, aim for no rain or irrigation for 24 hours after application.*

*Unless otherwise specified by product label.

Best Practice Tip:

Spray Efficiently

Don't apply pesticides just to apply, apply only based on need.*

*Check to see if the insect, disease, or weed is listed on the label to ensure the product is effective at controlling it!

Best Practice Tip:

Keep application records of when products were applied, for what issue, how much, to which plants or sites and so forth. An inventory list of when products were purchased, opened, how much was used and when can be helpful.

Malathion Concentrate

50% Malathion®

- Controls a variety of insects

CAPTAIN JACK'S™

MAXIMIZE the Power of Neem

**COMING SOON:
New Look, Same Great Product**

LEGACY PACKAGING

Plus
2 NEW SIZES!

Why is cold pressed neem oil better?
Pure cold-pressed neem oil is the highest quality because it preserves most of the beneficial compounds that are mostly found in neem seeds, particularly "azadirachtin."

So, why only 70%?
NeemMax is designed with 70% neem oil and 30% proprietary blend of additives. This delivers a product that can easily emulsify and mix with water, which results in better dispersal and efficacy.

Neem tree seed kernels

Like Neem Oil? You'll love NeemMax!

- ✓ Can be applied as a foliar spray or soil drench
- ✓ **4-in-1 protection** against insects, diseases, mites and nematodes
- ✓ Cold pressed through advanced filtration

Pending state registration renewals. Please refer to the your local sales representative.

Best Practice Tip:

Application Based on Harvest Intervals

If edibles (fruits, vegetables, or herbs) are listed on the label but there is no harvest interval, then you can apply and harvest on the same day. Examples include, **Captain Jack's Copper Fungicide**, and **Revitalize**. Instructions like 'Can be used up to day of harvest' means 0-day harvest interval too, such as on **Captain Jack's Neem Max**.
