

MAMMOTH®

20 **24**

THE COOLEST THING SINCE THE
ICE AGE

We got our start manufacturing tailgate tossing games back in 2006 and have been making great products ever since. Mammoth differentiates itself from peers in the outdoor market with innovative original designs that make our unique products appeal to a broader spectrum of the consumer market. By listening to the consumer and using competitive products in the field, we were able to craft a line of products that provide maximum performance without being unaffordable and unusable in everyday life. Lightweight products with ergonomic designs allow Mammoth to provide a better user experience.

We have thousands of loyal customers using our products everyday. From soccer moms in suburbia to trout bums in the west, the boaters in the Ozarks to the campers in the Northwest. They have all realized that they can have a top performing product that is actually usable in their daily activities.

ROVER

The Mammoth Rover tumbler is the ultimate way to take your favorite beverage on the go. The double-walled vacuum insulation keeps your beverage the perfect temperature, with no condensation. The Rover tumbler is built with 18/8 kitchen grade stainless steel making it durable and it will not leave a metal flavor. With a crystal clear lid, rubber gasket and rubber stopper your beverage will maintain constant temperature longer, making it the ultimate drinking experience.

CHILLSKI

The Mammoth 12 oz. Chillski is the ultimate way to keep your canned or bottled drink cold for hours. It is double-wall vacuum insulated which will keep your beverage up to 10X longer than a standard can holder. The Chillski is built with 18/8 durable stainless steel. The screw on collar seals the can or bottle securely inside the insulated body, making it the ultimate drinking experience.

TELUMTM
TACTICAL

Cutting Edge Driven Gear

The Latin word “telum” translates to “weapon,” and tactical immediately brings automatics to mind – perfectly capturing what is core to Telum Tactical’s purpose.

Telum Tactical strives to offer only the finest selection of purpose-built tactical gear, including a unique line of precision-crafted knives for law enforcement, military professionals, and avid outdoorsmen. Each of Telum Tactical’s designs is precision-crafted for superior performance, durability, and cutting power while providing the perfect balance of modern design and resilience.

Constructed of high-strength metal alloys and machined ergonomic grips, these knives are engineered for functionality. From fixed blades to automatic folders to special-purpose knives, Telum Tactical is committed to building a line of unique designs for every task.

VETERAN OWNED BUSINESS 

TITAN

- D2 Stone-Washed Finished Blade
- Automatic Opening System
- Safety Lock
- G10 Handle
- Tip-Up Pocket Clip

SKU TT2997-OD Green; TT3000-Black

The Titan Series of automatic knives is our largest automatic design. It has a G10 handle with texture for sure gripping. This 5.0-inch closed-length push-button automatic has a 4.0-inch-long D2 stone-washed tanto blade with a flat grind.

Designed for quick and easy opening, the knife can be opened with the push of a button to release its coil spring for quick and full opening. There is a slide safety lock on the side of the knife that can be used to lock the button in the open or closed position so that the button cannot be pushed. The pocket clip has a tip-up design.

GLAIVE

- D2 Satin Stone-Washed Finished Blade
- Automatic Opening System
- Safety Lock
- G10 Handle
- Tip-Up Pocket Clip

| | |
|-----|--------|
| SKU | TT3055 |
|-----|--------|

The Glaive automatic knife is a unique automatic design. It has a G10 handle with a sleek contoured handle design. This 5.0-inch closed-length push-button automatic has a 4.0-inch-long D2 satin stone-washed clip blade with a hollow grind.

The knife is designed for quick and easy opening. The knife can be opened with the push of a button to release its coil spring for quick and full opening. There is a slide safety lock on the side of the knife that can be used to lock the button in the open or closed position so the button cannot be pushed. The pocket clip has a tip-up design and is extra-long for better security in your pocket.

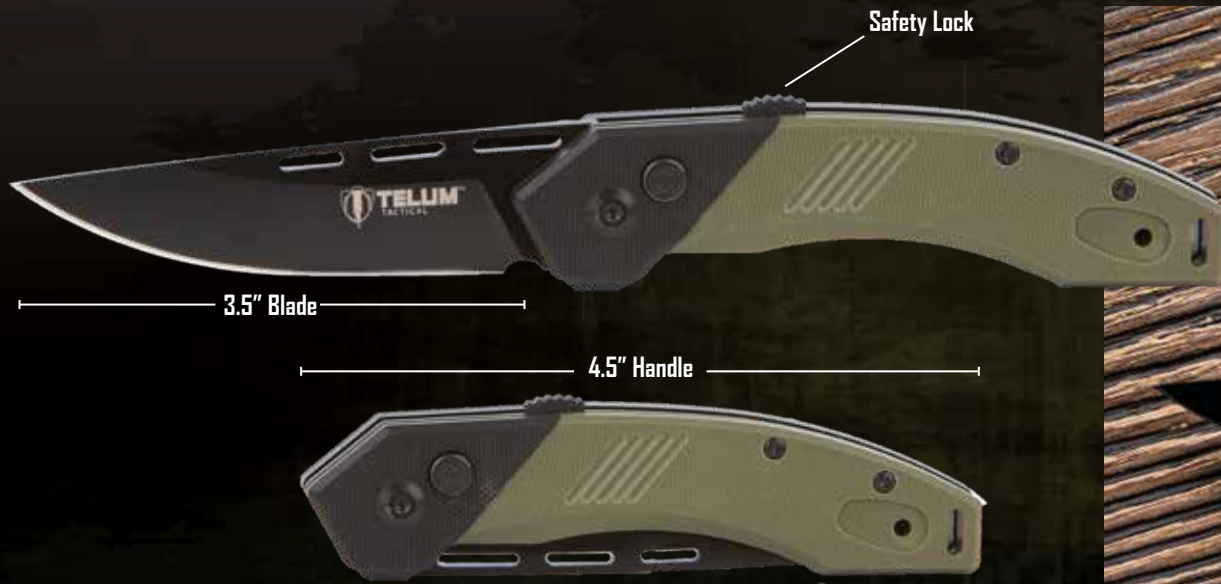

AFTERSHOCK

- D2 Black Titanium Coated Blade
- Automatic Opening System
- Safety Lock
- G10 Handle
- Reversible Tip-Up Pocket Clip

SKU TT3062

The Aftershock automatic knife has a strong and aggressive design built for tactical use. It has a contoured black G10 handle. This 4.5-inch closed-length push-button automatic has a 3.5-inch-long D2 black titanium-coated tanto blade with a flat grind. It has a blue titanium-coated liner to show Telum's support for our police officers.

The knife is designed for quick and easy opening. The knife can be opened with the push of a button to release its coil spring for quick and full opening. There is a slide safety lock on the back of the knife that can be used to lock the button in the open or closed position so the button cannot be pushed. The pocket clip has a tip-up design and is reversible.

SCORCH

- D2 Stone-Washed Finished Blade
- Automatic Opening System
- Safety Lock
- Two-Tone G10 Handle
- Reversible Tip-Up Pocket Clip

SKU TT3079

The Scorch automatic knife is built for speed. It has a contoured two-part G10 handle in black and OD-Green. This 4.5-inch closed-length push-button automatic has a 3.5-inch-long D2 black stone-washed coated blade with a hollow grind. It has specifically designed slots cut out of the blade to make it lighter, so it will deploy more quickly.

The knife is designed for quick and easy opening. The knife can be opened with the push of a button to release its coil spring for quick and full opening. There is a slide safety lock on the back of the knife that can be used to lock the button in the open or closed position so that the button cannot be pushed. The pocket clip has a tip-up design and is reversible.

INCINERATOR

- S35V Stone-Washed Coated Blade
- Automatic Opening System
- Safety Lock
- Two-Tone G10 Handle
- Reversible Tip-Up Pocket Clip

| | |
|-----|--------|
| SKU | TT3086 |
|-----|--------|

The Incinerator automatic knife is built for speed. It has a contoured two-part G10 handle in black and OD-Green. This 4.5-inch closed-length push-button automatic has a 3.5-inch-long S35V black stone-washed coated blade with a hollow grind. It has specifically designed slots cut out in the blade to make it lighter, so it will deploy more quickly.

The knife is designed for quick and easy opening. The knife can be opened with the push of a button to release its coil spring for quick and full opening. There is a slide safety lock on the back of the knife that can be used to lock the button in the open or closed position so that the button cannot be pushed. The pocket clip has a tip-up design and is reversible.

TREMOR

- S35V Satin Hollow Grind Blade
- Automatic Opening System
- Safety Lock
- Stainless Bolsters and G10 Handle
- Reversible Tip-Up Pocket Clip

SKU TT3093

The Tremor automatic knife is designed for high-end knife users. It has a contoured black G10 handle with a stainless-steel bolster. This 4.5-inch closed-length push-button automatic has a 3.5-inch-long S35V satin-finished blade with a full hollow grind. It is designed for strength with its S35V blade and stainless steel bolsters.

The knife is designed for quick and easy opening. The knife can be opened with the push of a button to release its coil spring for quick and full opening. There is a slide safety lock on the back of the knife that can be used to lock the button in the open or closed position so that the button cannot be pushed. The pocket clip has a tip-up design and is reversible.
