Nectar Guard[®] Tips

Nectar Guard tips easily slide onto the feeding ports on the underside of the feeder cover. The flexible membrane in the center of each tip easily opens when hummingbirds insert their beaks to feed and close up tight when beaks are removed. These create a barrier flying insects can't penetrate. Comes with a one-year guarantee.

Quick-Clean[®] Mesh Feeders

PEANUT MESH

Aspects' Quick-Clean Peanut Mesh is a "selective feeder" - acrobatic birds such as woodpeckers, chickadees, titmice, nuthatches, and finches can cling to the perchless stainless steel wire mesh tube. When filled with shelled peanuts, mixed nuts, or sunflower kernels, the Aspects Peanut Mesh is irresistible to the most entertaining group of birds.

FINCH MESH

The Quick-Clean Finch Mesh Feeder offers unlimited potential for attracting goldfinches, siskins, redpolls, purple and house finches. Finches cling to any open spot on the tube and a dozen birds might feed at once!
