LIQUINOX START 0-2-0 VITAMIN B-1

Liquinox Start Vitamin B-1 is a transplant solution of growth-promoting substances that includes Vitamin B-1, Alpha Naphthalene Acetic Acid (hormonelike substance) plus Yucca Extract Base, Chelated Iron and Phosphoric Acid.

Liquinox Start is especially formulated to help reduce transplant shock and to stimulate feeder root growth.

START is an effective transplant shock and to stimulate feeder root growth. START is an effective transplant solution for use on all types of transplants, including bare root roses, shrubs, bedding plants, seedlings and cuttings. Light frequent applications of Liquinox START will result in good, healthy root structure and successful planting.

LIQUINOX GROW 10-10-5

Liquinox Grow (10-15-5) "Encourages All Around Growth" Liquinox Grow is a concentrated all purpose fertilizer especially formulated for use on all types of indoor and outdoor plants. It is an excellent plant food for trees, shrubs, flowers, vegetables, hanging baskets and lawns. The Nitrogen increases foliage and stem growth and helps plants keep vibrant colors.

Phosphates encourage root growth, hasten maturity and increase plant hardiness. Potassium helps produce flowers and fruits and builds up plant resistance. GROW is very acidic (low pH - 1.7) and helps neutralize alkaline water and soil. As a general rule apply 1 Tablespoon per gallon of water, once a month.

LIQUINOX BLOOM 0-10-10

Liquinox Bloom is a non-nitrogen formula created especially for flowers, fruits and vegetables. Excellent for plants that require greater acid concentration and as a winter food. Liquinox Bloom contains a wetting agent (yucca extract base) that helps loosen soils and aids in water penetration.

Good on all flowers during budding and blooming periods. Helps toughen plants to withstand extreme climates. Ph = 0.4

LIQUINOX FISH FERTILIZER 5-1-1

Liquinox Fish Fertilizer is a Fish Emulsion 5-1-1 is a fish fertilizer that may be soil or foliar applied. Safe, non-burning for use on vegetables, flowers, shrubs, lawns, and trees. A general garden use fish fertilizer.
