COMPANY INTRO

Why You Should Want to Work With Messinas

There's a fundamental difference between "having" to do business together and "wanting" to do business together. When you have to do business together, interactions are forced, conversations are cold and codependency replaces trust. But when you actually want to do business together, information flows freely, ideas and successes are shared and trust holds it all together. At Messinas, we hope to be the kind of company that you want to do business with for a long, long time to come.

The Garden Company from The Garden State

Our family has more than 70 years of history in the garden industry from our first maintenance customers to our own garden center and now as a manufacturer. Our roots are planted firmly in New Jersey and we'll be a presence for years to come.

Our company philosophy is rather simple: offer the best products, in the best packaging at the best prices and, whenever possible, over-deliver on expectations.

-James Messina, President

TABLE OF CONTENTS

ANIMAL STOPPER ANIMAL REPELLENTS Liquid and Granular Formulas for Domestic and Wild Animal Control	4
DEPLETE INSECTICIDES Indoor and Outdoor Insect Control	16

PULVERIZE HERBICIDES Selective and Non Selective Weed Control	22
SEEDLINGERS UNIVERSAL PLANT TOOLS Liquid and Granular Fertilizers and Plant Control	26

Messinas knows that nothing is better than knowing how well a product works before you recommend it to a customer. Once you believe in it, you'll be our best salesperson. If you'd like to try anything you see here, just ask us for a free sample and we can get you something out right away; just another we're making buying that much easier.

ANIMAL STOPPERS

Our Animal Stopper animal repellents feature a full line of liquid and granular repellents that stop damage on contact, safely and effectively. Whether you have squirrels in your bird feeders, a neighbor's cat in your flower bed, snakes curling up by your air conditioning unit, deer using your landscaping for their nightly meal, moles ruining your turf, or even rodents nesting under your car hood, we have the right Animal Stopper product for you.

Animal Stopper

Small Wild Animal Repellents

Highly effective to deter rabbits, groundhogs and most other common herbivore pests from low level foraging, entry and nesting. Contains no blood, bone or meat meal, instead using plant extracts to deter animals, giving it a pleasant smell. Effective for 30 days, regardless of weather and watering. Stop armadillos, beavers, gophers, groundhogs, rabbits, raccoons, skunks and woodchucks from foraging, nesting, causing entry damage, and eating your garden plants & flower beds. Liquid and granular products work the same way, but are available in two forms for customer preference.

Active Ingredients: Rosemary Oil, Cinnamon Oil, Cornmint Oil, Putrescent Whole Egg Solids

Deer Stopper

Deer, Moose & Elk Repellents

Highly effective product that prevents deer, elk and moose from bedding down, rubbing and foraging damage. This pleasant scented product works by smell and taste and will not wash off after a heavy rain. Lasts for approximately 30 days regardless of weather. Safe for use around fruits and vegetables. Pleasant to use, dries clear and is odor free. Non-phytotoxic, can be used on any type of plant material. Deer Stopper is available in two unique formulas and both ready-to-use and concentrate formulas. These products may be used independently or rotated month to month as needed for those looking to rotate repellents.

Active Ingredients: Putrescent Whole Egg Solids, Rosemary Oil, Cornmint Oil

Deer Stopper II

Deer, Moose & Elk Repellents

We are often asked about the difference between Deer Stopper and Deer Stopper II, and the answer is that Deer Stopper has a scent profile of mint oil and rosemary oil while Deer Stopper II has a scent profile of cinnamon and clove. Both work the same, but since it can be recommended to rotate deer repellents, we have two formulas to choose from. Use them both or use one; you'll still get fantastic results. This easy-to-use liquid repellent is also made from natural ingredients, making it a safe choice for your plants, pets, and family.

Active Ingredients: Putrescent Whole Egg Solids, Cinnamon Oil, Clove Oil

Dog & Cat Stopper

Domestic Animal Repellents

We know how frustrating it can be to watch your newly planted garden get dug up by your neighbor's dog. Or to see your own beloved pet use your blooming flowers as its personal litter box. Our pain-free and pleasant smelling Dog & Cat Stopper repellent is designed to be used indoors or out, in a variety of situations. This product creates a sensory barrier that works by smell, taste, and feel. Dog and Cat Stopper is odor-free and can be applied every 30 days, regardless of weather or watering. Liquid and granular products work the same way, but are available in two forms for customer preference.

Active Ingredients: Geraniol, Castor Oil, Cornmint Oil

Goose Stopper

Goose & Duck Repellents

A flock of geese roosting and foraging on park fields, turf areas or beach property can cause damage to turf and unwanted droppings. Goose Stopper should be applied as a fine mist every 30 days, regardless of weather or watering. Goose Stopper is pleasant smelling, dries clear and odor-free and will not discolor cement walkways, docks, beaches, parks, asphalt or turf areas. All-natural and easy to use, Goose Stopper is safe to use around fruits and vegetables and works by taste and feel.

Reptile Stopper

Snake, Lizard & Reptile Repellents

As much as snakes and reptiles can be beneficial to gardens by keeping other pests away, no one likes to be surprised when seeing one in a flower bed. Applying Reptile Stopper every month in and around your flower beds and buildings will deter snakes and reptiles from foraging and nesting. This product creates a sensory boundary that works by smell, taste and feel and is odor-free.

Rodent Stopper

Mouse & Rat Repellents

The key to keeping rats and mice out of gardens, homes and structures is prevention. That's why we created our pleasant scented, all-natural Rodent Stopper repellent for indoor and outdoor use as it creates a sensory barrier that works by smell, taste and feel to prevent entry, nesting and food storage. Apply Rodent Stopper every 30 days, regardless of weather or watering, in homes, garages and storage areas as well as around building perimeters to prevent unwanted animal entry. Liquid and granular products work the same way, but are available in two forms for customer preference.

Squirrel Stopper

Squirrel & Chipmunk Repellents

Keeping squirrels and chipmunks out of gardens, homes and structures is harder than most animals, due to their dull senses. Our all-natural Squirrel Stopper repellent creates a sensory barrier that works by smell, taste and feel and it can be used both indoors or out, including on bird seed, in feeders and on bulbs to prevent nesting, foraging and entry. Apply Squirrel Stopper every 30 days, regardless of weather or watering. Squirrel Stopper is pleasant to use and dries clear and odor-free.

FOR USE DIRECTLY ON BIRDSEED

DELETE INSECTICIDES

A full line of indoor and outdoor insecticides that work safely and effectively to repel and kill the most common pests like mosquitoes, ants, flies, ticks, roaches, and more. Whether you're looking for a chemical free way to eliminate biting insects from your backyard or you're trying to keep foraging insects from entering your kitchen and food storage, you can count on Deplete products to get rid of your problem.

Deplete Bed Bug Insecticide

For Bed Bugs, Mites & Fleas

Kills and repels bed bugs, mites, fleas and other insects on contact. This specially formulated product is powered by Spira-Block® technology to repel and kill insects by preventing their ability to breathe through the small holes on their bodies called spiracles, without causing any harm to you, your family or pets when used according to directions. Use this product on indoor furniture, carpets, suitcases, clothing or on any other surface you want to keep these insects away from. Use all year long as needed.

PLOTSAYER AG PRODUCTS

The patented Plotsaver deer barrier system is a revolutionary tool for protecting food plots, crops, orchards, reforestation areas, nursery stock and all other growing areas from deer, moose, elk, axis and other related species.

The Plotsaver system features a reusable barrier ribbon treated with the Plotsaver deer repellent to create a powerful physical and sensory barrier that will deter these animals from crossing.

Plotsaver

Perimeter Protection System

When you plant a food plot or want to protect a planting, agricultural or reforestation area, plenty of hard work goes into the organization and implementation of seeds, plant material, water, nutrients and soil. To protect all your efforts, we have developed the Plotsaver system. Plotsaver liquid repellent is applied to the Plotsaver ribbon to create a sensory and physical barrier that deer, elk and moose will not cross and at a fraction of the cost of a broadcast application. Our Plotsaver liquid repellents are pleasant to use, dry clear and odor-free and, once applied, will last about 30 days, regardless of weather or watering.

PULVERIZE HERBICIDES

A full line of ready-to-use and concentrated herbicides to take on the toughest weeds, with ingredients found in nature and formulas approved for organic gardening. Whether you have dandelions and clover popping up in your lawn, that nagging weed establishing itself in the cracks of your walkway, or tough blackberry and poison ivy vines that just won't go away, there's a Pulverize Weed Killer that will get the job done.

Pulverize Weed & Grass

Non Selective Weed Killers

Uses a fast-acting, ammoniated soap of fatty acid, weed, grass, algae, and moss killer that is approved for organic gardening. Incidental over spray will not stain concrete or pavement. Pulverize Weed & Grass Killer is a non-selective herbicide that controls many common annual weeds. Pulverize Weed & Grass Killer suppresses the growth of some bi-annuals and perennial weeds. It can be used in cultivated areas prior to planting grass or flowers. Best results are obtained with young, actively growing weeds, less than five inches in size.

Active Ingredients: Ammoniated Soap of Fatty Acids

Pulverize for Lawns

Selective Weed Killers

Uses the active ingredient iron to selectively control/suppress broadleaf weeds growing in lawns without killing grass. Effective against Black medic, Bull thistle, Creeping buttercup, Dandelion, English daisy, Moss, Speedwell spp., Persian speedwell, White clover and other common weeds and grass. Dogs, pets and people can enter the area after the product has dried. Works fast, even in cold weather, and results will be seen in hours.

Active Ingredients: Iron HEDTA (FeHEDTA)

SEEDLINGERS UNIVERSAL PLANT TOOLS

A full line of ready-to-use and concentrated liquids, as well as granular products to tackle the most common plant health issues. Whether you're looking for a lawn & plant fertilizers, products to help with plant moisture loss, preserving flowers for indoor displays or even something to keep your plant leaves looking shiny and healthy, Seedlingers can help.

SEEDLINGERS FIX & FEED

Lawn Food

Seedlingers Fix & Feed fixes the soil where all your lawn problems begin with two specially formulated liquid & granular options that promote a sustainable system that will transform your soil into the powerhouse that nature intended it to be. We've formulated Seedlingers Fix & Feed with all of the components your lawn needs to grow thicker, greener and stronger. As your lawn recovers, it will be more tolerant of periods of both heat and cold stress, while requiring less watering.

Liquid Guaranteed Analysis N-P-K: 2-8-2

Derived From: Calcium Nitrate, Potassium Nitrate, Phosphoric Acid and Monopotassium Phosphate

Granular Guaranteed Analysis N-P-K: 12-0-3

Derived From: Soybean Meal, Urea, Potassium Chloride, Wheat Middlings and Ferrous Sulfate

SEEDLINGERS FLOWER PRESERVE

For Cut Flowers

Seedlingers Flower Preserve is a simple to use product for extending the life of plant foliage including branches, leaves and high quality cut flowers, replacing the water locked in them, to create soft, pliable material and long lasting results that can be easily be used in decorating efforts. While foliage will slowly change colors, fading over time, flowers can be enhanced with the addition of common color dye that matches their petals during the preservation process. For best results, begin preservation soon after clipping to ensure adequate absorption.

SEEDLINGERS HOLIDAY MAGIC

Prevents Needle Loss

Seedlingers Holiday Magic is a specially formulated product that uses a naturally occurring component found in all evergreens to improve the ability to withstand the dry conditions encountered once they are put on display in your home. Whether used on trees, wreaths, garland or other decorations, Seedlingers Holiday Magic will not only prevent drying out and needle loss, but it will add a fresh, holiday scent wherever it is applied. Apply to your holiday greens and let dry for approximately one hour before bringing them into your home for best results.

MAKES TURF MORE HYDROPHILIC

SEEDLINGERS LAWN LUSTER

For Color Enhancing

Seedlingers Lawn Luster is blend of essential micronutrients that delivers everything you need for vibrant, healthy looking turf. Seedlingers Lawn Luster has been specially formulated to encapsulate iron, manganese, zinc, and copper into an energy rich carbohydrate known as a polysaccharide, which is critical to turf health. This technology enhances the lawns ability to absorb the product thanks to the ease of foliar absorption and soil microbial release. Thanks to the specially created polysaccharide bonds, the release of the micronutrients into the soil system are protected for long term results.

Guaranteed Analysis: Iron (2%), Magnesium (1%), Manganese (1%), Zinc (.5%)
Derived From: Iron Sulfate, Magnesium Nitrate, Manganese Sulfate, Zinc Nitrate

SEEDLINGERS MIX & FEED

Liquid Fertilizer

Seedlingers Mix & Feed is a new generation product that helps plants withstand changes in temperature and water availability during the growing season while aiding in quicker recovery. This product delivers food to enhance nutrient uptake within plants; this promotes heat, drought and disease stress resilience. Seedlingers Mix & Feed delivers energy to the plants in a way that promotes photosynthesis and carbohydrate production, increasing the number and intensity of flowers and fruits that the plant is able to produce during the growing season.

SEEDLINGERS MOISTURE MAGIC

Wilt Preventer

Seedlingers Moisture Magic is an all-natural, anti-transpirant plant conditioner that prevents moisture loss which can result in leaf and shoot wilting, transfer shock damage or total plant loss. Seedlingers Moisture Magic helps to protect against seasonal temperature changes by reinforcing the plant's natural ability to hold moisture, making treated plant material more resistant to sudden temperature fluctuations, even in the toughest cold and drought conditions. Seedlingers Moisture Magic provides a flexible and protective coating that dries clear and odor free in minutes.

SEEDLINGERS WINTER MAGIC

Prevents Winter Burn

Seedlingers Moisture Magic is a special formulated anti-transpirant plant conditioner for outdoor plants that prevents moisture loss from drastic changes in temperature including, burning wilting and total plant loss. Seedlingers Winter Magic helps to protect against seasonal temperature changes by reinforcing the plant's natural ability to hold moisture, making treated plant material more resistant to sudden temperature fluctuations, even in the toughest cold and drought conditions. Seedlingers Winter Magic provides a flexible and protective coating that dries clear and odor free in minutes and usually lasts for an entire season, regardless of weather.

Active Ingredients: Pine Oil

SEEDLINGERS WORM MAGIC

Soil Amendment

Seedlingers Worm Magic is a natural, chemical-free worm castings product, that is odor-free, non-toxic, and non-burning. It will improve your soil texture, increase soil fertility, aid in nutrient retention, improve water holding capacity, and provide beneficial bacteria and fungus which are vital for healthy soil. When used in pots, mix two parts potting soil with one part Seedlingers Worm Magic to create a rich potting mix that retains moisture and nutrients better than ordinary potting soil.

Active Ingredients: Worm Castings
