BULLSEYE[®] POWER NOZZLE

Whether you're fighting a wildfire, cleaning up with full power or a pinpoint stream, or simply watering the back nine, the Bullseye Power Nozzle's got you covered. Power... when and where you need it!

Small enough to fit in your pocket and relied on by firefighters and industry for over 50 years, the Bullseye Power Nozzle adjusts from a Power mode to a Heavy Spray, a Pinpoint Stream, and a guaranteed Leak-Proof Off!

Made in the USA since 1969, the Bullseye Power Nozzle is on everyone's wish list!

Not sold in the big box stores and sold to firefighters, industry, and select retailers only.

**When performance matters...
Bullseye delivers!**

When you need more power, get the nozzle firefighters depend on.

049291008104 - Carded
049291008111 - Bulk

25pk Bulk
Counter Display

6 pk Counter Display
24pk Min. Order

Use with Chemicals:

The Bullseye Power Nozzle is generally resistant to most moderate Power Washing chemicals (wet or dry), organic acids, alcohols, ketones and aldehydes. Chemical contact with the brass should not be adversely affected by such chemicals as it is generally limited to splash or wipedown contact. The valve is generally attacked by ozone, strong acids, fats, oils, greases and most hydrocarbons and the greater the percentage of water versus chemical, the lesser the effect on the valve.

WARNING: This product can expose you to chemicals including Lead, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
