

DEEP DRIP[®]
WATERING STAKES

DISTRIBUTOR PRODUCT CATALOG

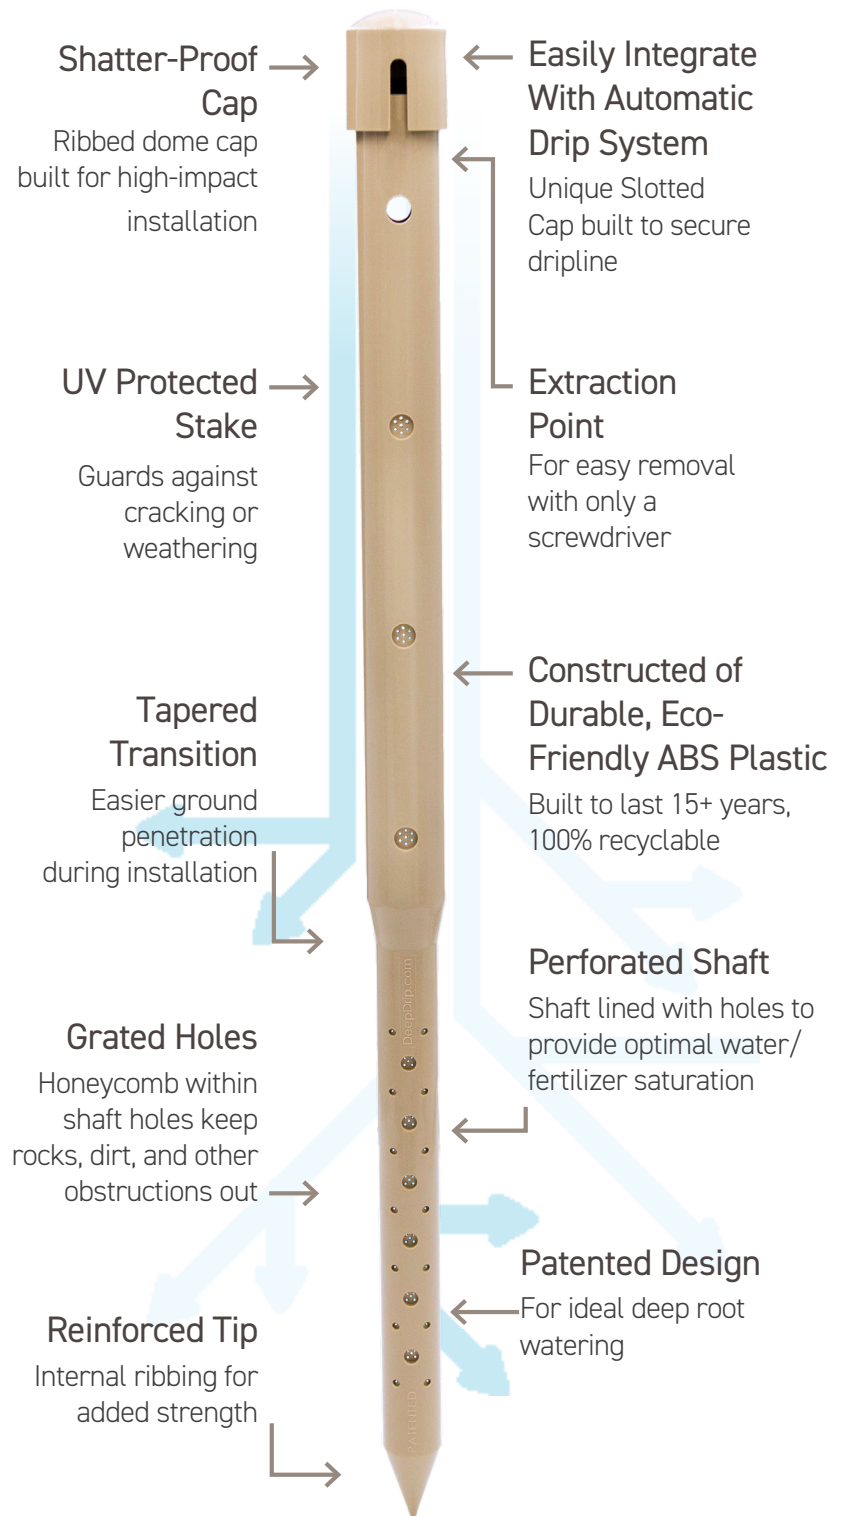

ABOUT

HOW IT WORKS

DEEP DRIP® Watering Stakes hydrate at your plants' roots and not at the surface where water is often lost to evaporation or run-off. By keeping 100% of your water directed to your tree, shrub, or plant where it belongs; no water is wasted. The stakes' direct watering also cuts down on watering time, conserving up to 50% of outdoor water use.
