STANDARD STRUCTURE

COCOPEAT WITH A LOW PERCENTAGE OF FIBRES

The Standard Structure was created for all types of cultures with no variation in quality. The Standard Structure offers low EC levels and is buffered to achieve optimal absorption while keeping the pH stable.

Our discs and cubes are pressed, dehydrated, enriched with endomycorrhizae.

UGRO Rhiza Plugs come in a box of 24 case pack 24 with display box

UGRO Plugs

| Model# | Size | Item UPC# | Pieces Per Case |
|-----------|------|--------------|-----------------|
| DEVRHIZA1 | PLUG | 837839005049 | 24 |

CONTROLLED

Our coco coir is obtained and packed in a salt-free environment and washed with fresh water to ensure low EC levels and the absence of pathogens and other impurities

SIZE

UGro does not pack the smaller coco particles that dry out, resulting in a premium product that has excellent water retention and airing properties.

INNOVATION

UGro Rhiza is a substrate, that has been enriched with endomycorrhizas, beneficial fungi, which form symbiotic association with the roots providing extra nutrients and moisture to the plants and improving the plants' ability to tolerate diseases and pests

SUSTAINABILITY

UGro uses coco coir, making our substrates peat-free, ecological, and sustainable. Making them eco-friendly and a green choice.

BACTERIA

UGro conserves natural trichodermas harzianum, a microorganism that prevents root rot and stimulates the growth of your plant. This makes your root system thrive.

A very sincere thank you!

Thank you for your interest in our catalog. It is because of customers like you that we can celebrate 28 years of success in this industry.

DeVault Enterprises Inc. has come a long way from its modest beginnings in my garage. I could have never imagined that DeVault would grow to be what it is today. We have become a company that has learned to solve every day problems with products that simply make life easier for our customers and we have created a life around that concept. Along with our problem-solving products we offer up a variety of lawn and garden products that complement our heavy-duty plant movers. These products are timeless and add aesthetic value to anyone's home garden.

DeVault now serves customers all over the world and we are thrilled to be assisting companies all over the industry. While my garage has grown much larger over time, my goals have stayed the same. We are a company here to solve the small everyday problems with products designed to be better than the rest and we are a company that provides variety for the lawn and garden industry as a whole. We genuinely love it!

My amazing team and I hope you enjoy our products as much as we enjoy offering them to you. The best is yet to come in our journey!

Sincerely,
Mike DeVault
