Burrowing Pest Geography

Moles

- Looks like it has no eyes or ears
- Long nose and big front feet
- Eats grubs, worms, & insects
- Leaves behind big mounds of dirt
- Damage to lawns with a network of underground tunnels

Gophers

- Brownish colored fur with sharp upper & lower teeth
- Can damage underground wires & sprinkler systems
- Damages roots and plant bases
- Leaves large mounds of dirt & digs deeper larger tunnels

Voles

- Looks like a mouse
- Eats all variety of plants
- Burrows underground
- Damages tree & shrub roots
- Eats plants, leaves, & stems

Gonzo has all the right tools for eliminating all kinds of burrowing rodents. Use the map and this chart to identify the correct products you'll need to win the battle against Moles, Gophers and Voles.

Peace of Mind & Around-the-Clock Protection for Your Lawn & Garden!

GONZO® offers a full suite of products to help protect your lawn and garden from Moles, Gophers, Voles, and other burrowing pests. Simply put...
Peace of Mind & Around-the-Clock Protection for Your Lawn & Garden!

KILL: We offer more than 10 different kinds of traps for Moles, Gophers and Voles that will help you address specific problems no matter where in the country you happen to live.

REPEL: Drive pests from your lawn and garden using the GONZO® Sonic Spike Repellers. They'll humanely push burrowing pests towards the perimeter of your property and off to greener pastures.

PREVENT: Barrier protection like GONZO® Gopher Shields® and Garden Shields® will prevent burrowing pest from getting to your new plantings and the soft roots that they so much enjoy eating.

All GONZO® products are backed by our satisfaction guarantee against all defects in workmanship. If for any reason you are not completely satisfied with this product, simply return the product with proof of purchase within 30 days for a complete refund.
