Setting the Landscape Industry Standard

WE HAVE THE EDGE WHEN IT COMES TO YOUR LANDSCAPE

# RETAIL CATALOG

# FOR OVER 50 YEARS,

VALLEY VIEW HAS ESTABLISHED ITSELF AS  
“THE BRAND NAME”  
IN THE EDGING CATEGORY FOR LAWN CARE.

From one store independent retailers to regional chains, no other brand in the industry reflects what we bring to the category, **ADDED NEW REVENUE.**

We are proud to be the leader of innovation in products that have been introduced to the lawn and garden marketplace, over the past 50 years. From the original patent of beaded poly lawn edgings, to the first no dig edging in the 1990's, Valley View Industries has led the way. In the past 10 years, our innovation has continued with offering the most diverse selection of decorative interlocking edgings, to the next generation of no dig edgings. Most recently, we gained national and industry notoriety, by supplying edgings from recycled tires. Our sustainability efforts with using recycled materials will continue to be the focus of our new product growth.

Thank you to all those retailers that have been along for the ride. We welcome those others who truly want to grow their category sales.

Sincerely,

THE GRATEFUL EMPLOYEES OF

**ValleyView**<sup>®</sup>  
**Industries**

The Next Generation

# NO DIG EDGING

Available in 20' and 60' buying options.

**To Dig, or Not to Dig,** that is the question.

There is absolutely no digging required for this product. Give your yard the edge it needs with ground edging or TALL, three inch edging.

*Looks Great on Straight Runs*

*No Digging Required*

*Bends Easily Around Trees & Bedding*

# ZERO HASSLE

# THE #1 PRODUCT FOR MULCH & PINESTRAW RETENTION

**THE GREENEST  
PRODUCT ON  
THE MARKET  
HAPPENS TO  
BE THE MOST  
USEFUL.**

Use Upright against sidewalks and driveways to separate wood chips or pine straw!

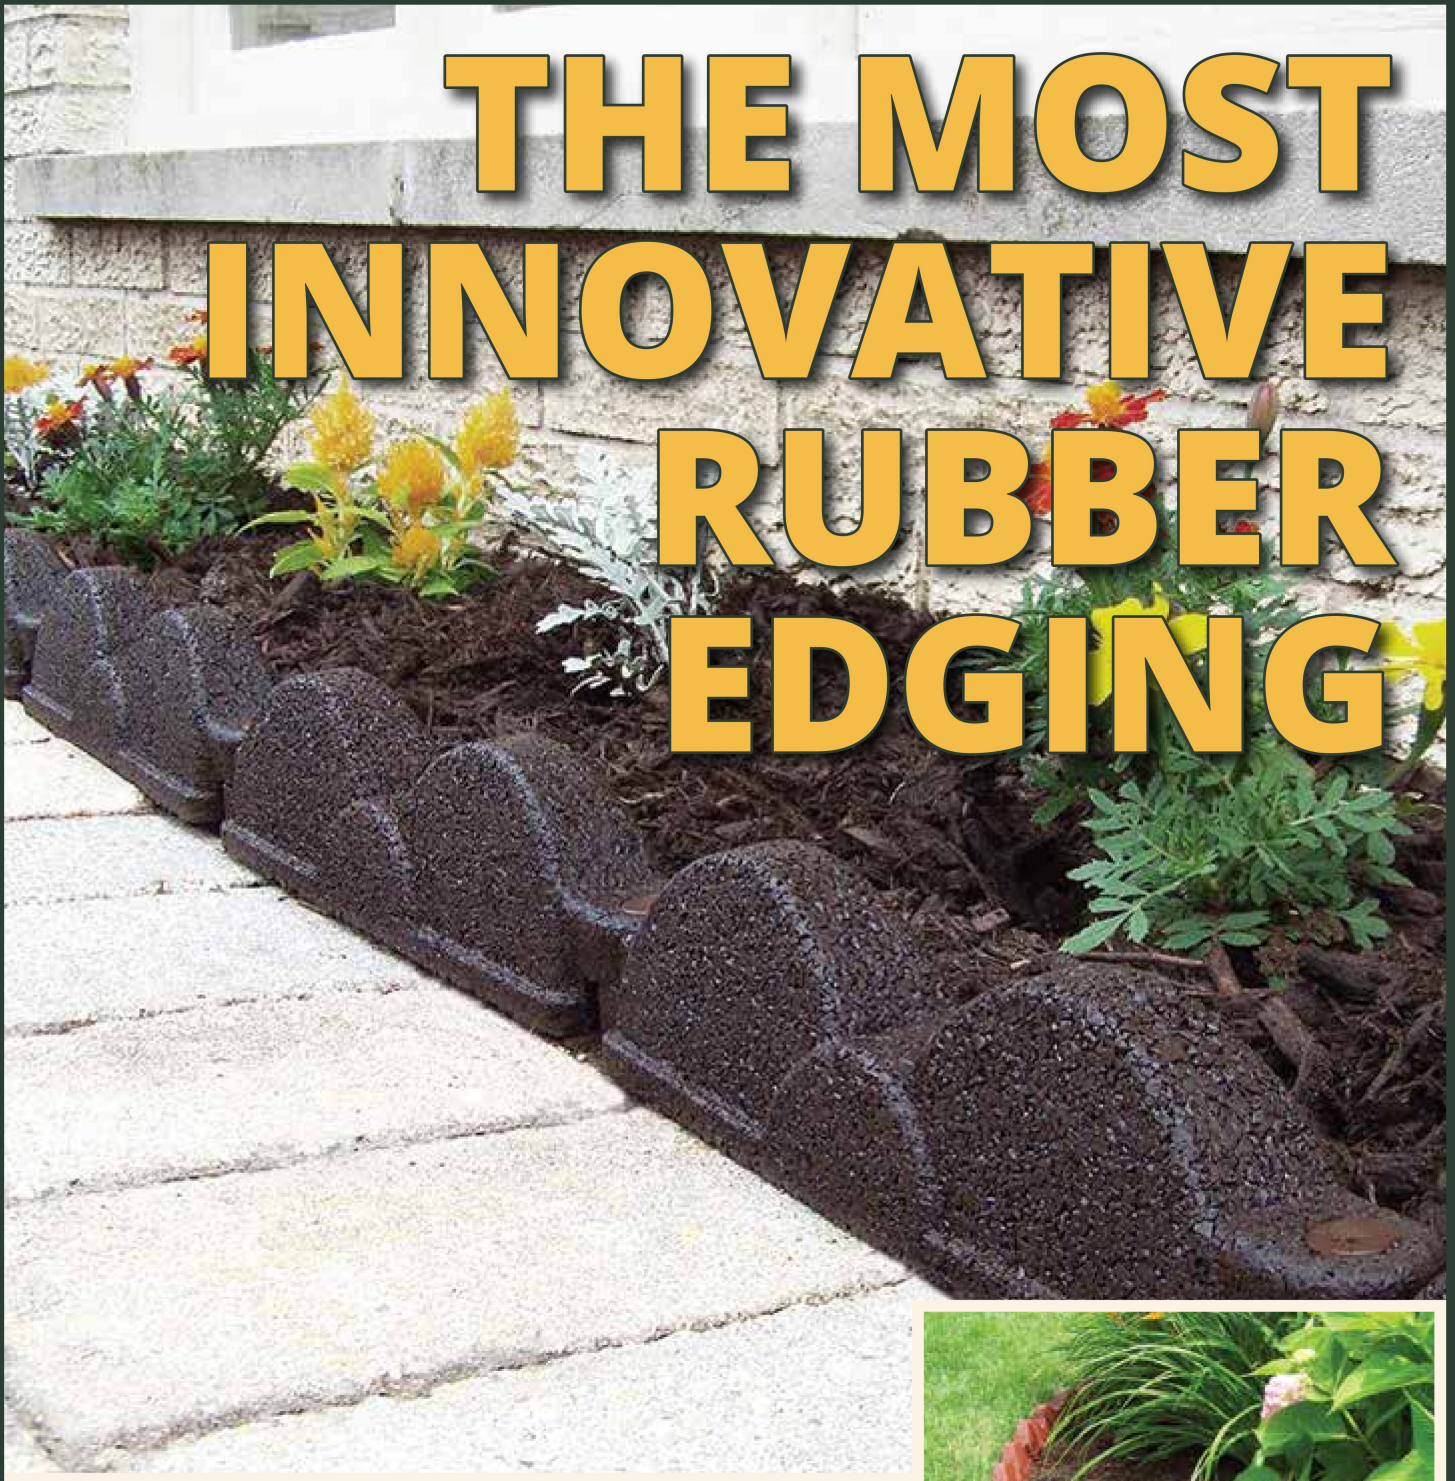

Use the rubber roll as a path across grass, woodchips and garden areas of any yard.

Install underneath fence lines and secure into place with poly nails to eliminate spraying and weed whacking.

# THE MOST INNOVATIVE RUBBER EDGING

**THE EDGE THAT  
YOUR GARDEN  
NEEDS**

**Two colors**

Cedar Red and Dark Brown

Over  
**50**  
YEARS

**ValleyView**<sup>®</sup>  
Industries  
Setting the Landscape Industry Standard

**EARTH EDGINGS™**

**RUBBER EDGING 12" / 30.5CM LENGTH**

**Earth Edgings™** is made from recycled tires and provides a long lasting, finished look for landscapes.

The most innovative rubber edging in the marketplace. Packages include 12 inch decorative pieces with 9 inch anchor nails. Our 12 inch rubber edging design edges out competition. The hinged design of each part allows for much easier circular creations compared to industry four foot options. This edging can virtually be used anywhere! Install it next to sidewalks, driveways, landscape beds, etc.

- Creates curves and angles
- No digging involved
- Versatility to bend around any path
- Smaller pieces eliminate the need for cutting

*Use Next to Concrete, Grass and More*

*Looks Great on Straights and Bends*

*Easy to Style Circles Around Trees*

# RUBBER EDGING PACKAGED OPTIONS

# THE EDGE YOUR YARD DESERVES

## THE MISSING LINK TO THE PERFECT LAWN

Connect 6" pieces of this beautiful plastic interlocking edging to add the perfect accent to your landscaping. This product edges out other competition by being flexible enough to make circles around tree beds and 90° angles against sidewalks and pavers.

Over  
**50**  
YEARS

**ValleyView**<sup>®</sup>  
Industries  
Setting the Landscape Industry Standard

## PROFESSIONAL LAWN EDGING

**PROFESSIONAL LAWN EDGING** helps give your lawn the defined border that it needs.

Royal Diamond Professional edging features heavy-gauge construction for durability and UV inhibitors to help protect against UV rays. Anchor stakes are highly recommended for keeping edging from lifting out of the soil.

- **Professional/Contractor Quality**
- **Made from Recycled Plastic**

*Clearly separates grass from bed*

*Runs along straight and curved edges*

*Secure into place with metal anchors*
