The Womanswork Story

We're a woman owned business and for 37 years we've been creating work and garden gloves designed to fit women's hands.

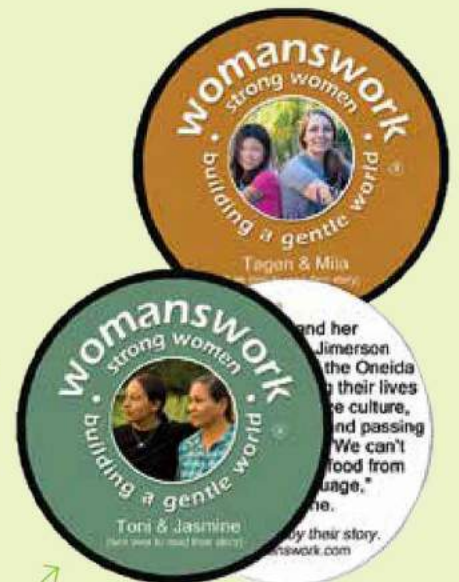

This is what's important to women gardeners:

- Good Fit: women tend to have narrower hands and longer fingers than men (women don't want downsized men's gloves!)
- Durability around the fingertips, because we often use our fingertips to dig in the garden.
- Convenience of machine washable, fast drying and color fast materials.
- Attractive colors and styling, from a woman's point of view.

In 2023 Womanswork became a member of '1% for the planet', whose mission is to accelerate environmental giving. As a member we have committed to donating 1% of our gross sales to their network of environmental organizations.

Hang tags feature women who are making a difference.

The Womanswork Promise to Our Retailers:

- We stand by our products. We will replace any product that does not live up to reasonable expectations.
- We want to make it easy for you to buy our products. We offer low minimums and smaller case packs.
- We want to make it easy for you to sell our products. We offer ongoing PR and social media exposure for the Womanswork brand.
