Gear to Protect From the Elements with All Day Comfort

FREE Shipping on \$350+ Orders

The Story

Farmers Defense was founded just three years ago by Kaz, Jeremy and Whitney based on their personal experiences to protect them from the elements while gardening, farming and working outside. They developed premium Protection Sleeves, Lightweight Work Aprons, and Sun Hats with a consciousness for the environment using recycled plastic bottles fabric laced with spandex to optimize fit, protection, and comfort.

In just three years using only Farmers Defense website, www.farmersdefense.com, Farmers Defense created a multi-million dollar business selling well over 100,000 sleeves during 2022 to consumers who have found multiple benefits from superior construction, features, and fashionable designs.

As you purchase from Farmers Defense, you can feel good knowing that your purchase is not only helping you grow your profits and protect your customers from the elements but also making a difference in the world.

Farmers Defense Protection Sleeves are designed to help customers work their best. Our polyester spandex fabric blend is designed to protect against skin aggravation from plants, cuts, and residue buildup, creating a strong but breathable barrier between skin and the elements.

The sleeves are also cooling with sweat wicking technology that pulls moisture away from the skin, dries quickly, and is breathable. They are also UPF 50+ rated to keep customers protected from harmful UV rays.
